To Whom it may Concern,

I was first introduced to Exceptional Service and Supply Lda. (ESS) and its founder, Alexander Thomson, over 7 years ago, while I was working as Country Manager for Schlumberger Angola. ESS began by providing Schlumberger procurement services, yet quickly grew to be one of our most trusted suppliers and partners providing us everything from logistics services, heavy machinery rental, man power, facility management and more.

What most impressed me about the ESS team was the reliability, flexibility, and ethics of the company. They always tried to find us a solution regardless of the task at hand. Their team was always honest in saying that they were not able to do something, but were always willing to create cost effective and operationally effective solutions and consequently both companies grew very well together.

Today as Global President of Schlumberger Well Services, there are few services providers that I have worked with in my career that have shown me the professionalism and dependability that my team and I continue to experience working with ESS. What continues to impress me most is that this is from a local Angolan company.

I highly recommend their company. Please feel free to contact me for any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read 'Amir Nessim', with a stylized, cursive script.
